- Boxed Dimensions 470x375x60mm (max)

### NOTE:

The lifestyle range of finishes is an attractive alternative to real wood, and offers a consistent colour across each range that will not change with time or use. It is easy to keep clean and extremely durable to withstand the everyday use of a busy household.

The beauty of real wood lies in its natural and individual appearance; over time, all timber matures and you will notice a difference in the strength of the grain and colour saturation from item to item. All Heritage Real Wood furniture is produced using solid timbers and real wood veneers, sourced from sustainable forests.

\*Mahogany remains a rare and precious commodity and a 'hot' environmental issue. Heritage does not source any Mahogany and uses suitable hard-wood alternatives treated to produce a Mahogany 'colour and look'. Such items are therefore 'Mahogany effect'.

### DIMENSIONS
